Lopez's delivery wagon was overturned on Reynolds street Saturday. It had stopped at Mr. J. H. Jones' residence, and while the driver was carrying into the house some purchases made that morning the team took a notion to run-and run they did. Result, a damaged wagon and spilt-out goods, but the horses were uninjured.

A collection was then taken up, and with the proceeds the sufferer was sent to

Ironton needs street lamps, and needs them badly. Why can't we have them? Surely a part of the city's money cannot be expended to better purpose. The Personal Assessment list will be The REGISTER did not favor electric lighting, and does not now, for the sole reason that the cost would be beyond the city purse, and one must needs have his coat cut according to the cloth. But this reason does not lie against good gasoline lamps. Again, why not have them?

A singular occurrence at Baldwin's hub factory Tuesday. The big derrick, sixty feet high, used for raising and piling logs has several reeves and pulleys at the top. One of these began chafing, and set fire to the staff. No one noticed it or knew of it until some hours later when some of the top hamper fell.
